SUPPLEMENT TO TREE PEONY CATALOG

During the past year, in accordance with the spirit of the times, we changed the names of our tree peonies from Japanese to English. This change was, on the whole, well received by our customers. However, we have quite a few specialists and persons who make a hobby of raising tree peonies and it has kept us very busy answering their letters and telling them the English names of the tree peonies which they ordered from us in recent years. Since there were so many of these letters, and because we want to protect the interests of the specialists and hobbyists as well as our general customers, we decided to publish a supplement to our regular catalog. We feel sure that this will add to the pleasure not only of those who specialize in tree peonies but also of those who have only a few specimen bushes.
